

WE WILL BE
CLOSED
ON
LABOR DAY

Monday, September 7

Deliveries via LTL Carriers (FedEx, R+L, N&M, etc.)

- Order early: Freight carriers are condensing deliveries into a 4-day holiday schedule, we recommend ordering early to help avoid shipping delays related to increased LTL freight volume.
- **For delivery the holiday week please place LTL orders by 12:00PM CT on Monday, August 31.**
- Processing during holiday week: We will continue to process and ship orders during the holiday week, except on Monday, September 7. Most early-week deliveries are expected to ship as normal; however, please plan for potential delays on LTL orders placed after Monday, August 31. We will communicate any limitations or delays as they arise.

ProMed Fleet Deliveries

- We do not anticipate significant changes for ProMed fleet deliveries with the exception of Monday, September 7.
- **Orders that would normally be placed on Monday, September 7 should be placed by 12:00PM CT on Friday, September 4 for delivery on Tuesday, September 8.**

We want to help you avoid a last-minute holiday scramble and ensure your facility is well stocked. If you have any questions about this schedule or your orders, please contact your ProMed Sales Representative.
